ROLE: **2021 Data Accelerator Apprenticeship**

ROLE TYPE: **Apprenticeship - Fixed Term Contract**

LOCATION: **London**

SALARY: **Competitive**

CLOSING DATE: **26 May 2021**

YOUR ROLE AT A GLANCE

Are you looking for a programme that is technically challenging? One that allows you to develop technical skills whilst applying them to real-world business challenges?

We're looking for any candidate who can answer "yes" to the above for our 2021 Data Accelerator Programme. If you're successful, you'll join Legal & General's well-regarded investment business, which plays a pivotal role in our continued success.

WHAT YOU'LL BE DOING

You will be joining us on an 18-month rotational programme focused on developing your data skills and business acumen. You will be working towards your Data Analyst Level 4 apprenticeship qualification, which has been designed to embed cutting edge data skills into your day to day role. As part of your rotations you will be working across a variety of projects, providing technical and data solutions to a range of stakeholders and customers.

You will have the chance to learn through live interactive workshops lead by Data Scientists and via highly tailored online learning and practice. All the while you will be applying your new skills to real world business challenges using live company data, whilst being coached along the way by a dedicated Data Mentor.

WHAT WE'RE LOOKING FOR

We are looking for learners who are highly motivated, passionate about learning and ready to take their analysis skills to the next level. We're not expecting prior industry or data experience, but we'll want to see that you have the tools to develop quickly. We are open to candidates of all ages and education levels.

In order to qualify for the programme and the apprenticeship qualification you will need to have:

Achieved a **C in both Maths and English GCSE**

Not currently pursuing another government funded scheme

You have the right to work in the UK and have lived in the UK or EEA for the past 3 consecutive years.

Have no prior education, training or associated qualifications in a related sector subject area, e.g. in Data Science, Data Analytics or Computer Science.

Please note that a requirement of the apprenticeship programme is that you will attain considerable new knowledge and skills as a result - so degree level qualifications in subjects with a heavy statistical component, like Mathematics or (BSc) Economics will require enhanced application checks to ensure you are a suitable candidate for the programme.

BENEFITS

Whatever your role, we reward ability, performance and attitude with a package that looks after all the things that are important to you. Our employees have a wide range of benefits including a generous pension scheme, life assurance, dependants' pensions, at least 22 days' holiday, performance related bonuses, a variety of share schemes, discounts at both a huge range of high street stores and our own great products. Your hard work will be rewarded when you join us.

ABOUT US

As a company, to be one of the world's largest Asset Managers, homebuilders, pension providers and insurances brands, we are diverse by our very nature. And we're a company that wants to use our diversity and influence to make society better in the long term - for everyone. To do this we need to be a company that welcomes everyone, where everyone can succeed. That means we're committed to building an inclusive culture in L&G where we can all perform at our best, no matter who we are, what we do or where we do it. So whoever you are, wherever you are, whatever your story, we'd love to hear from you.

ABOUT THE BUSINESS AREA

LGIM manages fixed income, equity, multi-asset, liability-driven investment, property and alternative solutions on behalf of its clients. Located across the globe, our clients include institutional pension funds, financial institutions, local authorities and sovereign wealth funds. In order to meet the complex and evolving investment needs of our clients, we focus on remaining at the forefront of investment product innovation and maintaining our reputation as experts across all asset classes.

OUR COMMITMENT TO EQUAL OPPORTUNITIES

We're an equal opportunities employer and welcome applications from all suitably qualified persons regardless of their race, sex, disability, religion/belief, sexual orientation, gender identity or age.

We want you to feel comfortable that this process is as fair and inclusive as possible, so please let us know if you have an illness or disability that you think may affect your performance during the process, so that reasonable adjustments can be made.

HOW TO FIND OUT MORE

Our recruitment process will include: submitting your online application and if success you will be asked to complete our online testing (a Situational Judgement and General Ability test.) You will then be required to complete a series of aptitude tests to assess your aptitude for the programme. If selected for final stage you will be meeting with the hiring teams.

Please note that we are recruiting on a rolling basis for this role and therefore the position may close sooner than the advertised date. We would encourage you to apply as soon as possible so as to not miss out on this opportunity.

The start date for the programme will be the 28th July.

For any queries please contact hannah.wild@landg.com. Please note we are unable to accept email applications.
