Ever thought about a career in Sales within an Investment Management firm?

Invesco is proud to be a part of the Investment20/20 initiative, and we are delighted to invite you to apply for a 12 month placement with us, starting on 20th September 2021. Our culture of collaboration and inclusion makes Invesco a great place to work and reflects the broad diversity of thought across our organisation. We offer entry level work experiences that will inspire and challenge you!

These are traineeships, so we are specifically looking for results-oriented school leavers or graduates who are interested in a career in Sales and Distribution. You'll have the opportunity to play an active role and contribute to the success of the function.

A Bit about the Distribution Team

The team is responsible for sales across all products and services to all clients in the region and is dedicated to delivering an outstanding investment experience for our clients.

Your Role

You'll be providing support to the Sales and UK Distribution Managements teams, contributing towards our goal of excellent client-centricity. You'll be generating ideas and finding opportunities to create efficiencies within established processes, as well as assisting with various legal, commercial, operational and performance analysis tasks, which are all highly data-driven.

You'll need an entrepreneurial attitude, with good verbal and numerical skills for this one, along with an openness to learning new technologies. You'll make it your business to be responsive to client needs and to learn about the industry and the financial markets. We'd also expect you to have an interest in investments and intellectual curiosity about investment products.

How to Apply

Whilst a CV is important, we'd also like to get to know you as more than just a name on a piece of paper, which is why we're asking you to address some questions that are important to us in a Word or PDF document:

1. What interests you about a career in Distribution?
2. How do you think Distribution contributes to the overall success of an investment management firm?
3. Tell us about a particularly challenging situation you've faced personally and what you've learnt from this
4. Tell us what you'd like to achieve in your career and how this placement might help you get there
5. What has your work experience and/or education taught you so far about yourself?
6. Tell us about your proudest achievement

***This is a great opportunity for you to shine and to help us better understand your motivations!
Unfortunately, we will not be able to consider your application without this submission.***
